

TOP FIVE REASONS TO USE A COMPLETE ROOFING SYSTEM

The Integrity
Roof System™
by CertainTeed

Strength in Unity – Roof system components from the same manufacturer work better as a unit.

Upgrades and Incentives – Complete roofing systems often offer stronger manufacturer warranties, loyalty programs, and purchasing incentives.

Warranty Considerations – It is easier to fix a failing roof under the warranty if components are made by the same manufacturer

Peace of Mind – You can rest assured a complete roofing system will work in concert, particularly the parts of the roof you can't see.

Save Time and Money – A hodge-podge of component manufacturers may save a little money upfront, but may ultimately cost more to fix.
